

Written by Larry W. Dennis, Sr., trainer and consultant since 1962. Larry has helped thousands of leadership teams create the alignment required to build open communication, trust, meaning and purpose into their lives and careers creating an environment where everyone experiences fulfillment as they work toward increasing company profitability.

Larry is the founder of Turbo Leadership Systems™, a leadership development and training company. Turbo Leadership Systems™ specializes in helping clients become “world-class” competitors by implementing the continuous improvement process. He has personally trained over 260,000 leaders, salespeople, customer service representatives and entrepreneurs coast-to-coast and in five foreign countries, including South Africa, Italy, West Indies, Canada and Great Britain. He has spoken before thousands of management and sales organizations. Larry has helped leaders in all fields reach greater success in their lives and careers.

Communicating For Results - The Language of Leadership - For leaders who want to successfully communicate their ideas; provides a new definition of “communication”. You are given very specific guidelines for all communication - selling ideas, running meetings, listening, acknowledgement, asking questions, on-the-job training, coaching, correcting, and more. Over 100 real life examples from leaders like you make the concepts easy to understand and apply. Communication is the core skill required to successfully maximize the value of all resources. **Communicating For Results** provides you with specific insights on how to improve your communication and provide the feedback that ensures improved performance and morale.
