#### **Thursday, April 9:**

For A Crew

Serving from 7:30 to 8:00 pm

**BBQ located at Roll Storage  
Area by Paper Machines offices**

## **Outstanding Performance**

In March 2009 we saw the culmination of eight months of hard work and focus throughout the mill to improve our performance. We have seen marked improvements in housekeeping, safety, production and quality. All these contribute to better control and lower cost.

In March we shattered the monthly production records:

**Prime production of 519.8 tonnes per day at 46.1 gsm  
(Beat the old record by 20 tpd)**

**Total production of 525.5 tonnes per day at 46.1 gsm  
(Beat the old record by 11.8 tpd)**

**PM 1 Absolute Efficiency of 93.1%**

**PM 2 Absolute Efficiency of 92.4%**

This is an incredible performance and we are continuing this level of performance in April.

To achieve the above the entire mill has to be working hard together with a focus on improving the mill performance in all areas.

It has been very exciting the last eight months to be a part of this incredible turnaround and I would like to thank and congratulate all employees for their hard work and dedication.

Thank you

Dan Boyer  
General Manager
