Pine Falls Team

Congratulations on establishing a total production record in March of an average of 525.5 tonnes per day and a prime production record of 520 tonnes per day. Absolute Efficiency records of 93.1% on PM 1 and 92.4% on PM 2 were also established.

Productivity improvement is just one of the ways to assist us in remaining competitive in these very turbulent times.

Once again, Congrats!

Chris Black

Subject: *Pine Falls March 2009 Production Records*

Dan,

Congratulations to you and the entire Pine Falls Team for the outstanding productivity results this past month. The new absolute efficiency records of 92.4% and 93.1% are enviable and are, simply put, "WORLD CLASS".

The productivity improvement trend which began last December illustrates the true potential of Pine Falls and comes at a time when best possible results have never been more important.

Again, great job and keep it up!
